

English

In English, I will be learning about William Shakespeare and his play, Macbeth. I will be participating in drama in order to learn more about the main characters within the play. I will also be learning how to write discussions with balanced arguments and a conclusion.

DT

I will be designing and creating a bridge which links with our project 'inventions' this term, 'inventions.'

RE

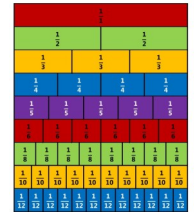

I will be learning about the concept of 'stones as a symbol.' I will explain what a symbol is and how stones are used as symbols in religious practice and writings. I will also evaluate stones as symbols by describing the value of their symbolism to Christians and Muslims.

Mathematics

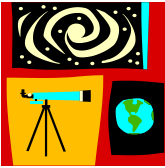

I will also be learning more about fractions, decimals and percentages and will be solving problems involving these areas of maths. I will also be revising the formal written methods for the 4 operations as well as solving problems involving money and measures.

Fraction Wall

Science

This term I will be finding out about earth and space. I will develop more of an understanding of day and night, the four seasons and the moon's phases. I will also be learning why there are different time zones.

Computing

I will be learning how to use a spreadsheet, including using formulas, I will also be learning how to programme a quiz in 'Scratch' as well as continuing to learn about e-safety.

Personal development

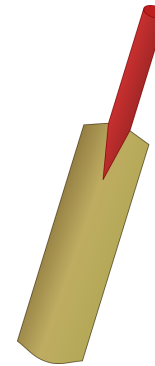

In circle time, I will be discussing spiritual, moral, social and cultural issues as well as learning about 'growth mindset' in more depth.

Year 5 -Summer Term 2015/16

PE

I will be continuing to learn how to form bridges in gymnastics and will gain confidence in knowing the rules for kwik cricket.

French

In year 5 I will begin to learn larger numbers in French and name common snack food items, expressing their opinions on these. They will learn how to add flavours to food in French sentences and practise by ordering and creating their own sandwiches in French.

History

I will be learning about British inventions from 1066. I will be explaining the importance of certain inventions and how and why they change over time.

Music

In music I will be learning how to play the samba drums. I will be playing the samba drums in time with the beat and will be copying and making up my own rhythms.

Art

I will be exploring and comparing two different artists who created their art based on inventions as their inspiration.
